Dear President of Member Society:

WFNRS has created and will financially support two new "WFNRS International Outreach Professorship Awards" in collaboration with ASNR's Anne G. Osborn International Outreach Professorship Program every year. All individual members of WFNRS member societies who fulfill the eligibility criteria may apply for these two new positions.

Rules of WFNRS International Outreach Professorship Awards

1. Applications will open in every year for Professorships that are to be held the following year. The WFNRS will use the same application form as the one used by ASNR's International Collaborations Committee (ICC). The application form is intended to be brief, with an emphasis on the applicant's teaching skills and experience. Preference will be given to applicants who have not been an outreach professor in the past three years.
2. The "WFNRS Travelling Grants Selection Committee" will also serve for the selection of the "WFNRS's International Outreach Professorship Awards". The Chair of the ASNR International Collaborations Committee will be an ex-officio member of this Committee. The Chair of the ASNR ICC will assist to cross-reference the WFNRS recommendations against the ICC list of the ICC's ten selections to ensure there are no conflicts or duplications and create a final cohort of 12 professorships each year.
3. All applications for the two "WFNRS International Outreach Professorship Awards" shall be reviewed by the "WFNRS Travelling Grants Selection Committee", who will recommend a rank-ordered short list of its selections (up to 10) to the WFNRS Board for WFNRS Board approval.
4. The WFNRS Board may limit the number of outreach professors from the same country to make sure WFNRS is diverse and inclusive to all WFNRS member societies' individual members.
5. The host country/organization will be notified of the WFNRS selections, and will participate in the final decision regarding which applicant they host. The host country is offered this role in the decision-making process to avoid situations where the host might perceive they are being asked to host a professor they do not wish.
6. A "match" will be held between the applicant's rank order and the host country's rank order. Applicants will be notified of the match results in September.

7. The host country will provide local housing, meals, and local transportation for the awarded professors.

8. The WFNRS will provide up to \$2,000 (U.S. funds) travel reimbursement to each successful applicant, as well as a certificate upon completion of the professorship. All other expenses will be the responsibility of the awarded professor.

9. Upon completion of the program, the outreach professor will be asked to write a one-page report summarizing his/her experience to be published on the WFNRS and ASNR websites and publications.

Eligibility Criteria

1. Shall be an "in good standing" full member of a WFNRS member society and approved by the applicant's society.

2. Shall be a certified radiologist and approved by the applicant's society.

3. Shall have a diploma/certification from a Neuroradiology program or earned a PhD degree in research related to this field and approved by the applicant's society.

4. Proof of a minimum a five years of teaching experience following the neuroradiology certification.

Deadline for application:

15 September 2019

How/to apply:
